2018 Rhode Island Anesthesia Conference *presents the* *Enhanced Recovery After Surgery*

Saturday, May 12, 2018 | 7:00 am - 4:30 pm
The Providence Marriott Hotel, One Orms Street

Program Description: This conference will address the management of patients participating in the Enhanced Recovery After Surgery (ERAS) pathway. Enhanced Recovery After Surgery (ERAS) encompasses a multitude of interdisciplinary, evidence-based techniques that improve patient outcomes for a variety of commonly performed surgical cases. Topics in the conference will focus on the optimization of Enhanced Recovery After Surgery (ERAS) patients from a pathophysiologic and clinical perspective. This activity will detail the perioperative anesthetic implications for Enhanced Recovery After Surgery (ERAS) across multiple medical and surgical subspecialties.

Course Directors: Christopher J. Malgieri, MD, Matthew Thran, MD and Tina Ellis, MD

This program has been approved for AMA PRA Category 1 Credits™
